## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(f) or (g) prior art under 35 U.S.C. 103(a).

### Specification

#### Status of Parent

The status of the parent application 09/548,494 should be updated.

### Claim Objections

The term "a" appears to be missing between the terms "with" and "virus" in line 1 of claim 25.

### Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Art Unit: 1623

Claims 1-20 are rejected under 35 U.S.C. § 102(e) as being anticipated by McGuigan et al., U.S. 6,455,513.

Claims 20 –24 and 31 – 36 are drawn to a 3' azido substituted aryl phosphate derivative of d4T, wherein an amino acid residue and halogenated aromatic group is a substituent of the phosphate moiety.

Claims 25-30 are drawn to a method for inhibiting virus replication in a cell infected with a virus.

McGuigan anticipates the claims as it teaches the compound (see col. 7, where R10 = azido; and col.3, lines 60 – 65 ) wherein the Aryl group is substituted with halogenated electron withdrawing groups) and use in the inhibition of viral replication as it teaches an amino acid substituted aryl phosphate derivative of d4T for the inhibition or resistant strains of HIV, (col. 8, line 44.)
